

# Glenn Stone Insurance

## Our story with the NZIS – So Far

Glenn Stone Insurance have partnered with the NZIS over the last 3 years and service over 40 land surveying and multi-disciplinary firms. We were the first diamond sponsor and this has enabled the NZIS to better support its members and the land surveying profession in general.

We work with the NZIS on insurance related topics or legislative changes that might impact the profession. Most recent examples include our advice on health and safety changes, construction contracts legislation and individual cadastral survey cover.

## Some of our key achievements over the last few years:

- › Lowering costs to land surveyors.
- › Introducing an alternative insurance choice.
- › Delivering covers not previously available in New Zealand.
- › Scholarship introduced for School of Surveying.
- › Continuous development of innovative solutions.

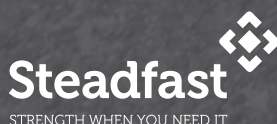

## We recognise relationships are important

- › Glenn Stone insurance is a New Zealand owned brokering firm, not a multi-national company.
- › You will get to deal with the owners of the company directly.
- › We provide personalised service.

*Whether you are a present client of ours or not if you need help or simply want some advice contact us.*
