

## Licensed and wanting more?

Tired of commuting, astronomical house prices and repetitive 2-lotters? And how's the technology going for you? Wishing you had new new toys to play with and variety in the landscape?

**Cheal** provides Surveying, Engineering and Planning expertise to a national client base. With 78 years in the business, we know our land and we understand the needs of our clients. We provide first-class working facilities, advanced surveying technology and a highly supportive team culture.

We have vacancies for Licensed surveying professionals in our **Taupo, Hamilton and Rotorua** offices. Situated on the doorstep of the Central North Island's recreational playgrounds, why not take a step towards career and lifestyle? Its easier than you think!

### The ideal candidates should possess:

- Bachelor of Surveying
- CSLB Practising Certificate
- Proven experience in the New Zealand cadastral system.
- A high degree of competency in 12D and/or AutoCAD
- An overall aptitude for technology with experience in GIS, drone surveys and 3D laser scan surveys desirable
- A great sense of humour and the desire to be a team player

Full, clean driving licence and a high level of physical fitness essential.
