

Experienced Surveyor

We have a position for an experienced Surveyor to join our Specialist Engineering Surveying company based in Taupō.

We are an established small to medium sized company that is well known by our clients. Our primary focus is engineering surveying with an emphasis on landform and structural monitoring of geothermal and hydro energy sites throughout New Zealand.

Ideally the applicant would have the ability to see jobs through from start to finish. We use a wide variety of modern survey equipment, including Total Stations, GPS, Scanners and permanent monitoring installations to capture data.

What we are looking for:

- BSurv or comparable qualification with 5+ years' experience
- Ideally CAD or 12D experience
- Experience with a range of modern survey equipment
- Excellent communication, organisational and self-management skills
- A desire to develop new skills and help grow the company

What you will get:

- Excellent remuneration
- Travel to interesting locations
- The opportunity to work with an energetic fun-loving team
- Relocation assistance

Taupō is a bustling lakeside town in the heart of the North Island. The town has mountains and lakes providing many sporting and recreational pursuits (see photos below).
