- A good working knowledge of e-survey and creating plan datasets
- Proficiency with 12D software, Leica Robotic Total Stations and GPS instruments
- The ability to work within a team environment with minimum supervision
- Good communication skills;
- A positive attitude and ability to learn.

### ABOUT US

Terra Group NZ Ltd is a New Zealand based and owned multidisciplinary consultancy company. The range of services we can offer in-house is primarily related to the planning, analysis, design and implementation of infrastructural projects. Our expertise includes, but is not limited to; Project Management, Planning, Surveying, Structural Engineering, Construction & Civil Engineering, Land Development, Urban Design, Architecture and Built Environment. Our departments are transdisciplinary; a combination of different experts from various disciplines working together to approach a common goal. This consequentially eases the process of construction.

### "It's not only what we do, it's why we do it

At Terra Consultants, we want to build communities people are excited to live in. We do this through our expert design, sustainable urban strategy, wellness and holistic approaches. We also happen to be reasonably priced (profitable for you), reliable (deliver on time) and able to deliver a range of disciplines under one umbrella; locally and internationally. Terra understands that the process of developing can be filled with stressful obstacles and often, it is hard to know where to start or who to talk to. We believe that we can help you with your journey and make it a smooth and successful one; from concept to completion.
