

"I enjoy being an Applications Specialist in the Trimble Access team because I am influencing the products that surveyors are using now and in the future"

- Derek Shanks

Applications Specialist/Surveyor Trimble Inc.

Trimble's Surveying and Geospatial division has a full-time position available as an Application Specialist/Surveyor in Christchurch, New Zealand

THE COMPANY

Trimble® Inc. is the global leader in positioning technologies, transforming the way the world works by providing innovative solutions for customers in multiple industries worldwide. Trimble Geospatial focuses on the work of professionals engaged in surveying, mapping, GIS, 3D modeling, land administration and the environment.

JOIN OUR GEOSPATIAL TEAM

- ▶ We provide excellent support, progression, and training and highly value an individual with the right attitude
- ▶ We offer a competitive salary dependent on your level of experience
- ▶ This is an opportunity to use your survey knowledge to work with and improve the latest surveying technology
- ▶ Work on a variety of projects in a global organisation and grow your career in the technology/product development industry

THE ROLE

As an Applications Specialist, you will be involved in the specification, testing, documentation and preparation for release of the Trimble Access software; the leading field software that professional surveyors use around the world.

Trimble Access is the hub of the surveyors workflow and as such you will work with the latest GNSS receivers, total stations, and office and cloud-based Trimble software.

As part of the team, you will be required to carry out both component testing and end to end field systems testing to ensure we release high quality products that meet our customers needs.

The ideal candidate is someone who:

- ▶ Has a BSc degree or equivalent qualification (Land Survey, Geodesy, or Geomatics).
- ▶ Enjoys and works well in a team, and is self-motivated to succeed
- ▶ Has great problem-solving skills and attention to detail
- ▶ Is passionate about technology
- ▶ Demonstrates and projects a high level of energy and enthusiasm
- ▶ Has a strong commitment to quality, persistence and inquisitiveness.
- ▶ Is willing to travel internationally
