

So much more than a Bloke with a Theodolite.

Survey Technician – Mount Maunganui

Due to ongoing growth, RPC Land Surveyors is seeking a Survey Technician with 2 – 6 year's experience to join our team in Mount Maunganui.

Just a few blocks from the best beach in NZ, RPC is a well-respected, long established surveying consultancy, with newly remodelled modern offices in a thriving city. Based in both Mount Maunganui and Auckland, the company prides itself on providing its clients with a comprehensive list of services for all Land Surveying, Resource Management, Planning and Land Development work.

This is an opportunity to become a member of a friendly and experienced team, involved in a number of exciting land developments in the greater Bay of Plenty area. The successful applicant will be given the opportunity to work on all aspects of field surveying and gain considerable 'hands-on' experience, led by a team of qualified professionals. As a technician, you will have good skills in the field with GPS and Robotic Total Stations and will be familiar with 12D Model. Ideally, this role would suit an ambitious surveyor who enjoys field work and processing their own work in the office.

In return, RPC Land Surveyors offer a competitive salary, top of the line IT and surveying equipment and the opportunity to advance your career with ongoing training.

If you are keen to join our team and work for a fun and professional surveying company, then please submit your CV and cover letter in the first instance to:

Blair Jackson – Director
