S+SNZ is an internationally recognised professional organisation that promotes growth, innovation, excellence in all facets of surveying and spatial in New Zealand.

S+SN7 mission

To lead and foster a vibrant sector that allows the surveying and spatial profession to grow, and positively influence our communities.

The Board is responsible to Council and the membership for the organisational health and prosperity of S+SNZ. The Board sets the medium-term direction of NZIS and monitors management's performance on behalf of stakeholders. The Board fulfils its responsibilities by establishing and ensuring:

 the strategic direction; the relevance of policies and the appropriateness of the ways in which products, programs and services are provided; that S+SNZ has the capacity to implement policy and to manage its affairs; organisational risks of all types are understood and that policies are in place to manage these risks; that S+SNZ's goals and consequent accomplishments, and the choices that were made in pursuit of those goals, are adequately communicated and explained to Council and members.

## **MAKE-UP OF THE BOARD**

S+SNZ Board has a membership of six directors appointed by the Council consisting of two independents and four member directors. The S+SNZ President and CEO attend all board meetings but are not members of the Board and have no voting rights. A chairman is elected annually by the board members.

## **BOARD SKILL SETS**

As an overall target the board membership should contain or have reasonable access to the following skill sets. It is stressed that this skill set is the ideal picture of the whole board, not any one individual:

Intimate knowledge and operational understanding of S+SNZ and its core surveying and
spatial activities;
Strong local and national community connection, credibility and networks;
Leadership experience;
Business acumen;
Strategic Planning experience and understanding (commercial and not for profit);
Experience in marketing;
Knowledge of legal issues relating to business or the not for profit sector;
Knowledge and experience in risk management, finance, economics or accounting;
Good understanding of the principles of governance and management;
Experience in communications, human resources or public relations;
Strong profile in government and corporate circles.
Experience with not-for-profit style commercial partnerships and relationship building.

It should be noted that this breakdown is the ideal position and where a skill set cannot be derived through the appointment process then the board may co-opt specific expertise to assist with various projects or research as and when required.

## PERFORMANCE EXPECTATIONS OF BOARD MEMBERS

In addition to the performance expectations outlined above, it is also expected that each Board member will be available to the Chief Executive and will attend S+SNZ events as appropriate.

Board members are expected to meet their fiduciary duties, which involve devoting their skills and attention to acting in the best interests of S+SNZ. In doing so they must always act in good faith, apply their skills in a diligent manner and make proper enquiry into the matters addressed by the Board. In making decisions they must consider the long-term future of S+SNZ and act as a competent steward of the assets and resources of S+SNZ. Director's Liability Insurance is maintained by S+SNZ.
