

GEOWORKS

LICENSED CADASTRAL SURVEYORS / GRADUATES / TECHNICIANS

Geoworks is a highly respected practice based in the Manawatu. Our office is experiencing steady and sustained growth, and we are now looking to welcome additional team members on board.

We are a busy team working on a broad variety of rural and urban projects, so job variety is guaranteed. We have many existing projects on the go, and more in the pipeline, meaning our business has positive momentum. We have projects between the Coromandel and Wellington, and many places between.

We invite applications from Licensed Cadastral Surveyors, Graduates, or Technicians for full-time permanent positions. The job descriptions are flexible, and we can meet the experience of any level of applicant wanting to make a positive contribution to the team.

We are looking for people who want to be a part of a dynamic, motivated team, and keen to expand their roles within the company. Whilst experience is advantageous, both training and support will be offered to people looking to develop their abilities.

We offer great career and professional development opportunities in a central North Island provincial environment offering a very desirable lifestyle choice and affordable housing options.

All applications will be treated with strict confidence.

As a medium size business, we are not in a position to support overseas applicants, therefore we do ask that only New Zealand Surveyors apply.

A New Zealand Drivers License is also required.

If you are up for the challenge, we want to hear from you. Please email your covering letter and CV to: admin@geoworks.co.nz
