

Registered Professional Surveyor

Dunwoodie & Green Surveyors is a well established survey firm based in Thames and operating on the beautiful Coromandel Peninsula and Hauraki Plains.

The area has an attractive lifestyle with great beaches, outdoors and not too far from the traffic jams of some big cities. Viewed by many as a holiday destination, during lockdown we became the place of peoples dreams.

Our team works on a mix of resource consent applications, urban and rural subdivisions, topographic surveys and land development.

If you are a Registered Professional Surveyor (or Licenced Cadastral Surveyor who wishes to become a R.P. Surv) looking to for a new challenge. You are invited to email your CV to Philip Green:
