

Established in Christchurch over 30 years ago, the Practice that is now Baseline Group is a medium sized multi-disciplinary practice who pride ourselves on cost-effective and pro-active solutions to land development, surveying planning and engineering projects. We are comfortable working closely with all manner of allied professions and trades and are able to quickly and concisely communicate consultancy advice and information to all parties.

With offices in Christchurch, Marlborough and Central Otago, we have projects all over New Zealand, including the Chatham Islands. We are seeking a Surveyor to join our busy Christchurch office. This is a position involving all types of surveys, including land transfer, engineering set-out and as-builts, topographic mapping and laser scanning. You will have access to modern GPS, Robotic Total Station and surveying software.

The successful applicant will possess the following skills:

- Experience in the New Zealand Land Transfer System.
- Experience in post-quake Christchurch a strong advantage.
- A knowledge of 12d, landonline and AutoCAD software.
- Ability to work well within a team environment.
- Strong written and verbal communication skills.
- A clean drivers licence.
- A desire to be a part of an energising and social office.

In return, we offer a competitive package including professional memberships and other benefits. All applications, including a full curriculum vitae and covering letter, will be treated in the strictest of confidence and should be directed to - hayley@blg.nz

Applicants for this position should have NZ residency or a valid NZ work visa.
