

SURVEYOR/SURVEY TECHNICIAN

**Wide variety of land development and construction projects
Latest survey equipment and software
Auckland Based**

Quadrant is a diverse surveying company focusing on land development, engineering and construction surveys in the Auckland and Canterbury Regions.

Our growth is creating increasing workloads and we now require an additional surveyor for our Auckland business.

We require an experienced surveyor/survey technician with the following skills and attributes:

- A varied work history, with experience in topographic, cadastral and construction surveying in NZ
- Proficiency with Leica survey equipment along with 12d Model, AutoCAD and Landonline software
- The ability to build new & strong relationships with clients and maintain existing ones
- Have the ability to liaise effectively with clients and contractors regarding project requirements
- A high level of accuracy in all aspects of work
- An appreciation of the need to keep information secure and confidential
- Excellent interpersonal, written, verbal and listening communication skills
- A self-directed highly motivated team player with plenty of initiative and a can do attitude
- Excellent time management skills, and the ability to simply get things done
- A high level of adaptability and the ability to learn new skills quickly

Daily work tasks will include:

- Data preparation, fieldwork, data processing and plan draughting
- Utilising GNSS, total station, UAV and digital level to complete the required field tasks accurately and in a timely manner.

For the successful candidate there will be a rewarding remuneration package, along with potential for long term prospects within Quadrant.

Applicants must have the right to work in New Zealand.
