

Licensed Cadastral Surveyor

- Diverse range of work
- Excellent work life balance

Change your lifestyle and live and work in a vibrant community and great coastal-inland environment.

The Dunedin economy is thriving so we're looking for a Licensed Cadastral Surveyor to join our team. With numerous projects about to get underway, there's never been a better time to make the move.

Are you a Surveyor looking for the next step in your career?

TL Survey Services operates over the lower South Island and our surveying practice is diverse. One week you may be doing urban and land development surveys in the city and its surrounds, and the next you could be flying in a helicopter over the Southern Alps or Otago coast line doing large scale rural work. We use 12D and AutoCad and Civil 3D software and Landonline for creating and critiquing our CSDs and pride ourselves on ensuring we satisfy our clients' expectations.

To work in a city where all amenities are very accessible and getting to work on time is easy. Come and join us!

Dunedin is a great little city that has so much to offer, a world respected university, schools and no traffic jams to ruin the start of your day. We're minutes away from the harbour and surrounded by wildlife and beautiful beaches. If you enjoy skiing, hiking or mountain biking the wonders of Wanaka and Queenstown are only a short drive away for your weekend escapes.

We are looking for someone who excels in attention to detail, has excellent communication skills, the ability to think on their feet and bring value to both our clients and the company. Requirements for qualifications, skills and experience are outlined in the position description.

If this sounds like something excited about, please get in touch with Aki aki@tlsurvey.co.nz or phone 03 477 1133.
