- Dedication to ensuring our surveying team are fully utilised to provide our clients with quality survey functions. This role will require a high degree of leadership, and the ability to work as part of a wider management team.
- Solid grounding with experience on large-scale projects of a wide variety; with leadership experience preferred.
- Strong New Zealand experience in cadastral surveying, capable of preparing full Cadastral Survey Datasets ready for submission to LINZ.
- Experience working with Leica instruments and AutoCAD & 12d software.
- A strong knowledge with managing conditions of subdivision consents.
- Exceptional understanding of the requirements of managing both the workflow and surveying team; and manage communications with senior management and other related disciplines.
- Strong communication skills with the ability to work unsupervised and as part of a team; whilst maintaining the respect of our clients and your peers.
- A positive, friendly, can-do attitude; be able to think on your feet and make fast decisions with a hands-on approach.
- Desire to be proactive in the growth of the business to achieve set goals.
- High level of professionalism in all areas at all times.
- Experience delivering outstanding results in health, safety and environmental compliance.
- Has the right to work in New Zealand.

On offer:

- Competitive salary package
- Opportunities for training and development in a growing business
- Work with a fabulous group of skilled people in a professional, dynamic environment
