

Licensed Cadastral Surveyor/ Graduate Surveyor

McKinlay Surveyors undertake land surveying, planning and land development projects throughout the Taranaki region. We are committed to delivering the highest performance and best results for all our valued clients. We are currently looking for a self-motivated and passionate Licensed Cadastral Surveyor or a Graduate close to being licensed to join our team in New Plymouth.

This role will comprise land transfer surveying as well as resource consent and land development surveying tasks as required including:

- Undertake & manage cadastral surveys using efficient, practical & innovative surveying solutions
- Undertake and ensure that field and office-based survey work is performed to the highest professional standards
- Undertake engineering design, site surveying and construction supervision
- Prepare resource consent applications

Key requirements:

- A positive work ethic and the skills & competence to manage your own workload with minimal supervision
- Licensed Cadastral Surveyor or Graduate close to being licensed
- 3 years' post-qualification experience related to cadastral surveying
- Excellent written and verbal communication skills
- Ability to deliver efficient and accurate surveying services across a various range of projects
- Familiarity with the Resource Management Act and land development processes
- Competence operating GPS and robotic total station equipment
- Advanced knowledge of AutoCAD Civil 3D, 12D and e-survey dataset lodgement
- Engineering design and supervision experience desirable
- A full NZ drivers' licence

On offer:

- Competitive remuneration package based on qualifications and experience
- Work with a fabulous group of skilled people in a professional, dynamic environment
- Opportunities for training and continuing professional development
- Opportunity for the right person to step up to an associate or partner position

If this sounds like you, please forward your application to surveyor@mckinlay.co.nz
