

Terramark

Setting New Boundaries

GRADUATE SURVEYOR / SURVEY TECHNICIAN OTAGO

Terramark Ltd is a land surveying, resource management, and land development engineering consultancy with offices in Dunedin, Mosgiel, and Balclutha.

We pride ourselves on our core value of "going the extra mile" for our clients, and the successful and timely delivery of a wide range of projects.

If you have a desire to return to your survey roots and are looking to set new boundaries, an opportunity exists for a NZ trained graduate surveyor and/or survey technician with NZ experience to join our Dunedin/Mosgiel operation.

You will be personable and confident with a can-do attitude, as your role will be varied and challenging. We use Trimble Robotic Total Stations and Leica GPS, 12d, Landonline and CAD, and though training will be provided, proficiency with these will be an advantage.

WE OFFER

- A challenging role within a growing consultancy
- Exposure to a wide variety of projects
- The opportunity to add value to our clients' projects, and to work within the Terramark core values

If this sounds like you, please apply by sending your CV and cover letter to:
