

Licensed Surveyor/Survey Technician

Macroventures Limited

Porirua, Wellington

Job description

About Us

We are a small multi-disciplinary consultancy based in Porirua and Whangarei specialising in Surveying, Civil & Structural Engineering. We are a young company that has grown rapidly over the last 3 years and are now looking at making some exciting changes to set our consultancy up for the future.

The role

We have an opportunity for a Licensed Cadastral Surveyor, experienced graduate or survey technician to join our team based in our Porirua office.

Our consultancy is currently working on a range of land development projects ranging from 2 to 200+ lots. This role offers the opportunity to be involved in a number of different areas ranging from topographical, cadastral, as-built, engineering and post-consent management to name just a few. We have some cool projects coming up and this role will be at the centre of the action.

As we are a young company, there is plenty of scope to grow within the team and make the position your own as we build the surveying arm of our organisation.

The ideal candidate:

- 5+ year experience in land/engineering surveying
- Have an interest or experience in working in Land Development.
- Experience with 12d, AutoCAD and Landonline would be preferable but not necessarily essential.
- A self-driven approach to continuous improvement both for themselves and the company
- Be able to work in a team environment and be able to communicate with a wide range of people.

We offer flexible working, on-the-job training and ongoing career development, with support to those that may be working towards cadastral licensing if applicable.
