

Experienced Surveyor/Recently Licensed Cadastral Surveyor

Location: Auckland

Work type: Permanent, full time

WOODS is a multi-disciplinary company providing Urban Design, Architecture, Engineering, Planning, Surveying and Geo-Spatial services to the land development, building, health, institutional, energy, government, and transport sectors, to name a few. Our rich history began nearly 50 years ago, and with more than 50 surveyors in Auckland and Christchurch, Woods has one of the largest surveying teams in New Zealand. This means we can meet all surveying requirements — from topographical and site detail to LIDAR and Terrestrial Scanning.

An organisation is nothing without its people. So, we focus on hiring the best and supporting them through continuous professional and development programmes (CPD), consisting of a formal and informal learning.

We are seeking an Experienced Surveyor/Licensed Cadastral Surveyor to join our team in Auckland. The position will see you working alongside an experienced Registered Professional Surveyor working on some of NZ's largest and most prestigious subdivision. It has a strong focus on cadastral surveying, scheme planning, legal instruments and managing large scale topographic data. You will be working in a broad range of surveying disciplines including land development, infrastructure, laser scanning, monitoring and construction. There is an attractive remuneration package available for the successful applicant along with mentoring and career development opportunities.
