

Eliot Sinclair are a multi-disciplinary consultancy based in the South Island with offices in Christchurch, Rangiora, Queenstown, Hokitika and Nelson. Starting out as a family-run business, our core values still hold true amongst our team. We strive to embody them every day, backing up each other and upholding a welcoming and empowering culture.

Our people stay with us for a long time because we create meaningful careers full of opportunity. With staff from all around the world, we value diversity and appreciate each individual for who they are and what they bring to our team. We are problem solvers who think outside the box to find a better answer.

### **Our expertise**

Members of our survey team are well known for their depth of knowledge and use of innovative technology and we are the only company in New Zealand who operates their own CORS network.

With the past president of Survey and Spatial NZ as our Managing Director, and with two members of our leadership team being Fellows of Survey and Spatial NZ, it is clear that our leaders, our staff and our professionalism are valued and recognised.

We run a comprehensive licensing programme for survey graduates and provide opportunities for professional development. We are proud of staff and their passion for the surveying industry. Our team holds various recent awards including 12d Innovation awards, Percy Dyett Award, Maurice Crompton-Smith Memorial Prize and others.

### **Our vacancies**

We are looking for talented professionals to join our survey team and have several open vacancies in Christchurch. If you are a licenced cadastral surveyor, a graduate surveyor or a survey technician looking for great professional development opportunities, visit our website to learn about our vacancies and to apply to join our team. We are looking forward to hearing from you!
