

JONES & STANGER LTD
Registered Surveyors & Planners

LICENSED CADASTRAL SURVEYOR/ TECHNICIAN/GRADUATE – NELSON

Looking for interesting survey work and the chance for active client and project management?

Enjoy lots of sunshine, outdoor activities, and great work/life balance?

Then this is the job for you! Jones and Stanger Surveyors are looking for a surveyor to help with a sustained growth period. We are an expanding medium sized Nelson surveying firm working in:

- Resource Consent Planning
- Subdivision and Land Development Engineering design
- Cadastral Surveying
- Project Management

This a great role and will provide you with a variety of survey work including field & office work for building site plans, building & civil works setouts, LT subdivision works, Engineering design & drafting, as well as involvement in simple planning and construction monitoring.

In return, you will be given real independence, and to share in the satisfaction of growing a successful company, a friendly environment, and a competitive salary.

So, if you are a Licensed Cadastral Surveyor, Graduate Surveyor or Survey Technician with:

- Ability to work with minimal supervision and a desire improve yourself
- Client relationship skills
- 12D & AutoCAD experience an advantage
- NZ experience and NZ residency

Then we want to hear from you now!

To apply, please email admin@jasl.nz with your CV and cover letter.
