

Engineering Surveyor - Auckland

The Lands and Survey Group is a well-established, multi-disciplined surveying, planning and engineering company. We provide clients with a personalised and professional service across the wider Auckland region.

Due to an influx of projects, we need an additional Engineering Surveyor to join our team.

Key requirements:

- At least 2 years' post-qual experience in NZ with solid skills and the confidence to manage your own workload with minimal supervision
- Ability to deliver efficient and accurate surveying techniques across a various range of projects
- Pref experience working with Leica instruments and AutoCAD & 12d software
- Good data analytical skills to produce results with a high degree of accuracy
- Proven organisational and time management skills
- Strong communication skills and capability to liaise well with our valued clients and other team members
- A positive, friendly, can-do attitude; be able to think on your feet!
- Current drivers licence
- Must be in New Zealand, with the right to work immediately

On offer:

- Great salary package, incentives to be discussed
- Dedicated, talented team to support your development, on-going training and career
- Solid pipeline of quality projects
- True work-life balance in the best area of NZ!

Sound like you? If yes please forward your application to derek@landsandsurvey.co.nz
