

Senior Land Surveyor/Licensed Cadastral Surveyor Christchurch-based

Hello and welcome to your next career opportunity.

You're an experienced land surveyor, looking for a change. You might be looking for the next step in your career or for a better lifestyle. Or you're already a senior land surveyor, looking to work within a new team.

If you already live in Christchurch, you'll know all about the fantastic lifestyle. Beautiful beaches, majestic mountains, and rolling plains surround a city creatively and sustainably growing and rebuilding itself. Land to survey, as far as the eye can see!

Quadrant is a small but diverse surveying company focused on land development, engineering, and construction surveys in the South Island. We employ experienced surveyors with diverse skillsets to eliminate downtime, encourage efficiency and productivity, and promote continuity for our clients' projects.

Due to increasing workloads, we are looking for a senior land surveyor for our Christchurch office.

Who are you?

As mentioned, you're an experienced land surveyor - with superpowers.

- You have at least 4 years' experience across a broad range of projects, operating as a cadastral land surveyor in the commercial environment.
- When it comes to GNSS, robotic total stations, Landonline and survey software, you really know your stuff. And if you are knowledgeable about Leica survey equipment and 12d software, that's definitely a plus - but not a 'must-have'.
- Job management and project management experience is second nature to you.
- You're passionate about what you do (and what more you're capable of), you have a positive can-do attitude, you thrive in a small, close-knit team environment, and you're professional and fun to be around.
- And you are legally entitled to work in New Zealand.

What will you do?

Working independently and autonomously and as part of a supportive team, you will be responsible for undertaking fieldwork, data preparation and processing, and plan draughting at all levels, utilising GNSS, total stations and digital levels.

What's in it for you?

A rewarding remuneration package, flexible hours to enable training, a relaxed, friendly family-orientated environment, free parking, and opportunities for long term prospects within Quadrant. And did we mention the 9-day fortnight?

If you're still reading, we hope we've piqued your interest in joining our innovative, thriving, progressive, and fun company.

To discuss this opportunity with us, and/or apply for the role, please forward your CV to Toby Anderson at careers@quadrant.net.nz. Please use reference: Christchurch Surveyor 2022.

Thanks for your time, we look forward to hearing from you.
