

SURVEY TECHNICIANS – QUEENSTOWN AND TIMARU

We are looking for Survey Technicians to join our South Team and assist with our ever-growing workload in our Queenstown Office and our Timaru Office. 3 years experience is preferable.

We have a wide range of projects that you will be involved in from small-medium scale commercial and rural developments, through to large scale residential subdivisions.

This role will see you prepare scheme plans, conduct land transfer and spatial surveys, and be involved in land development engineering and design. This role offers variety with field and office-based components.

Your benefits include competitive remuneration, flexible working hours, professional memberships paid for, strong and supportive team culture, strong professional development frameworks, and the ability to work from various offices around NZ (project and experience dependent).

If you love the outdoors, enjoy a challenge, and want to be a part of a growing multi-disciplinary team, please contact bopinfo@maven.co.nz for further information or check out our available roles and apply through the following link to our [Maven Website](#)!
