

# Surveyor

At Chester Consultants our people are key – Our Success is Your Success!  
We have an opportunity for an experienced land surveyor to join the Chester Survey team.

Our surveyors are key members of the Chester Land Development and Infrastructure team, working collaboratively in the delivery of survey services across a wide scope of market sectors.

Chester is committed to supporting you through your next career growth and development steps – do you want mentoring and support as you work towards Cadastral Licensing or building on your existing Land Development and Infrastructure surveying expertise?

**You will already be at a level where you can confidently:**

- Undertake field/cadastral surveying including topographical surveys, land transfer, height to boundary and house / civil work set-outs etc.
- Complete survey processing and calculations
- Complete LINZ / council searches

**Some of the basics you will already have in your portfolio include:**

- Relevant surveying qualification – BSurv or National Diploma in Surveying or International equivalent
- Strong surveyor experience in NZ, South Africa, or Australia
- Experience working on projects both independently and within a support team
- Good working knowledge of surveying equipment
- Ability to effectively manage scheduling and meet deadlines
- Professional and confident engagement with all stakeholders
- Full driver's licence and able to drive manual vehicles

Chester Consultants can provide you continued career development, a commercially sound project portfolio, and a positive work environment along with:

- Competitive, experience-based remuneration
- Career development, mentoring and support
- Generous professional development and wellbeing budgets
- Funded professional membership fees
- Mobile phone
- Informal and professional workplace culture
- North Shore office location
