

UAV/ Drone Pilot or Survey Skills and keen to learn UAV!

Who we are

Fox and Associates want great people to join the team to help deliver our clients many interesting and complex projects involving land development, spatial and rural surveying services. We are specialists in RPAS, with state-of-the-art technology, and an award-winning team.

The Role

We currently have an exciting opportunity for a motivated individual to join our friendly team. Ideally, we would like someone with UAV pilot certification, who also has practical surveying experience. If you are technically minded with UAV experience or have survey skills and a desire to fly UAV, we are keen to hear from you!

As UAV Pilot, your role will be to plan and deliver the operation of a variety of drones in a multitude of flight scenarios for the purposes of surveying and mapping. You will interact with clients, land-owners, and the relevant authorities to ensure the safe and efficient use of drone technology. You will report directly to the Chief Pilot and support them as required. You will also assist with application, analysis, and interpretation of information.

Key Responsibilities

Plan, coordinate, and conduct the operation of RPAS technology including UAV/ USV and Lidar
Perform pre-flight, in-flight, and post-flight safety checks.
Undertake and ensure that field and office-based UAV survey work is performed to professional and relevant standards.
Organise timely provision of services to meet safety, quality and time requirements.
Complete project reports and flight data review.
Interact with current and potential clients to support business development.

To be successful in this fantastic opportunity, you must have:

Practical aptitude with excellent 'in-the- field' problem solving skills
Good spatial awareness and co-ordination skills
Ability to work with accuracy, quality and time objectives

An understanding of technical work, preferably Surveying
A passion for RPAS technology

Ideally you will have

Proven UAV/ drone experience with relevant certification

Employee benefits

We offer a range of benefits to our employees including Medical Insurance, regular team building initiatives, and an Employee Assistance Program.

Our values

- **People come first**
- **Do the right thing**
- **Value expertise**
- **Look for a better way**
- **Enjoy the journey**
