

LICENSED CADASTRAL SURVEYOR

Inovo is a multidisciplinary consultancy with significant experience in planning, construction programming, land development, infrastructure, project management and services design management.

Inovo has a large amount of work across our land development business and are looking to grow our team so we can continue to provide an outstanding level of service to our clients. Inovo's clients come from a wide variety of government, corporate, institutional, and private sector fields.

Following growth in our client base, an exciting opportunity exists for an experienced cadastral surveyor to join our Christchurch-based team.

This role involves cadastral, topographical, UAV, and construction surveying for multi-unit and multi-lot developments, civil infrastructure and vertical construction.

Our ideal candidate will be;

- An experienced New Zealand Licensed Cadastral Surveyor
- Competent with Landonline and 12D software
- An excellent written and oral communicator whose confident in engaging a variety of stakeholders across all levels
- Able to work independently and organise work programs
- Proficient with field work techniques for GPS and Total Station
- Have an understanding of the RMA and planning processes
- Ability to provide support to Graduate Surveyors

Inovo offers an attractive remuneration package, a modern work environment, career development potential, a diverse range of projects and a supportive, progressive work culture. Take a look at our website to see some of the projects we are involved in – www.inovo.nz

If you think you'd be a great fit for our team, please send your resume along with a covering letter to admin@inovo.nz
