

August 2018

Licensed Cadastral Surveyor position available.

All things family; lifestyle, sports, motorsport, the great outdoors and hunting. Does something here resonate with you? Well, Pirie Consultants is a company who are passionate about a lot of things – not least, all aspects of the spatial and surveying sector.

We take our work seriously but have a lot of fun while we are at it, and as a result we have established a home-grown company that has a reputation for success in the Manawatu and beyond.

With the capital city, wine trails, mountains and lakes within easy reach, and the probability of a beach front lifestyle, their pursuits outside of work are equally serious and impressive. But what will make you want to join their team is the vast range of work undertaken and that they are able to provide high level services using the latest surveying equipment including GPS, UAV, robotic instruments fully supported by 12D software and other mapping systems.

In addition, they value professional development and have a huge emphasis on TEAM so you too can enhance your career.

Pirie Consultants Ltd is part of a consortium with associates in Palmerston North and Wellington which enables them to provide their clients with a comprehensive service for all Land Surveying, Civil, Structural and Environmental Engineering Design, Setout and Supervision of Construction, and Consultancy Services for Resource Management, Planning and Development work. This has enabled them to build a close working relationship with other professionals, Local Authorities, Government agencies, contractors and builders to service their requirements. <https://goo.gl/CNdb6z>
