

# SENIOR CIVIL ENGINEER - CHRISTCHURCH

---

Inovo Projects is not your traditional multi-disciplined company. We pride ourselves on innovative approach customised for our clients. With a team of over 45 we provide specialist professional services in the disciplines of; Project Management, Project Planning, Resource Management Planning, Engineering and Surveying for our clients from our modern Christchurch and Auckland offices.

An exciting opportunity exists to join our Christchurch Office as intermediate to senior civil engineer, through the growth in our client base. Inovo Projects are involved with some of the biggest development projects in the South Island, in a variety of sectors including; irrigation, tourism, commercial, residential and infrastructure. Our client range from Co-ordinate, Government, Local Government and the Private Sector.

Our ideal candidate will have;

- Previous New Zealand based design engineering experience
- Experience working on land development projects
- A relevant tertiary education, e.g. BE Civil
- Familiarity with 12d design software
- Design skills for earthworks, water, sewer, storm water and roading
- Comfortable with NZS 3910 contract supervision
- The ability to organise work programmes, and work to timeframes
- Outstanding oral and written communication
- A confident and professional approach

Inovo offers an attractive remuneration package, career development potential, a diverse range of projects and a progressive work culture. Please email your CV, including cover letter, in confidence to [peter@inovo.nz](mailto:peter@inovo.nz).
