

NZIS CPD Point Allocation

Structured Professional Learning

Conferences, congresses, commissions and conventions: May be organised by NZIS, allied professional bodies, government and non-government agencies. CPD points are gained from the technical programme, as distinct from the social programme.

Courses, seminars, workshops and lectures: Includes those provided by a wide range of organisations such as educational bodies, government departments, and private providers and generally will be related to the member's field of expertise. It also includes events related to business, communication, management, leadership and so on.

NZIS meetings: Regular attendance at meetings allows a member to keep up to date with professional matters. They provide members with a means to advance the profession of surveying including the free exchange of knowledge and experience. They also provide a mechanism for members wishing to participate in advocacy of best practice in areas related to surveying.

In-house training: Structured in-house learning presented by in-house experts, external presenters or self-taught tutorials. It may also be a joint exercise conducted by several survey firms.

Tertiary courses: Relevant courses provided by public or private tertiary level organisations.

Unstructured Professional Learning

Research, writing and presentation of papers for publishing: Includes preparation of papers on surveying and spatial science matters for the *New Zealand Surveyor*, *Surveying+Spatial*, CPD Seminars and NZIS Conference, etc.

Service on technical and practice committees: Includes NZIS professional streams looking at specific technical subjects and service on technical committees of local government.

NZIS service: Includes service on NZIS branch, division and group committees and Council.

Individual endeavour: Relates to the discipline of self-education through reading relevant journals, technical papers, or articles related to a member's core discipline. It includes preparation for NZIS examinations and preparation for professional entrance interviews.
